I am a result-oriented AI Designer and Software Developer with hands-on experience in over 50 projects across AI, backend, gaming, and mobile/web development. I graduated from Izmir University of Economics in 2024 with a 3.07 GPA. I have earned 25+ certifications from Cisco, Udemy, and other platforms, specializing in C# (.NET, OOP, game development), Python (AI/ML, data analytics), and C++ (Unreal Engine, OOP). In Sep–Oct 2025, I worked at CBOT as an AI Designer, where I designed AI-powered chatbot solutions for enterprises, municipalities, and banks, while managing workflows through automation tools. With a product-oriented mindset, strong problem-solving skills, and cross-functional experience, I focus on delivering impactful and innovative solutions.
